

# Partner with the Environmental Professionals

## WE ARE:

Registered Professional Engineers  
VAP Certified Professionals  
Air and Noise Specialists  
Ecologists  
Archaeologists  
Asbestos and Lead Specialists  
Architectural Historians  
Certified Professional Geologists  
Certified Industrial Hygienists  
Microbiologists  
LEED Accredited Professionals

Lawhon & Associates, Inc. (L&A) provides full-service environmental and engineering consulting services to the public and private sector. The company was founded in 1985 and attributes its success to providing responsive, client-focused technical expertise through the personal direction of the principals and senior staff. Headquartered in Columbus, L&A also has offices in Cleveland and Dayton, Ohio.

We understand dealing with environmental challenges can divert time and resources away from your core mission. L&A's engineers and scientists possess the knowledge and experience to identify potential environmental liabilities and prioritize needs and response actions that meet project and stakeholder objectives. Our clients can depend on us to provide accurate, practical and cost-effective solutions—backed by technical credentials and professional certifications relevant to the services we provide.

L&A is a woman-owned, small business and a licensed engineering company in the State of Ohio. The firm maintains numerous local and state government DBE certifications.

## SPECIALTIES:

Hazardous Building Materials  
Natural and Cultural Resources  
Indoor Environmental Quality  
Air and Noise Analyses  
Environmental Site Assessment  
Environmental Engineering

ENVIRONMENTAL CONSULTING AND ENGINEERING SERVICES

# Capabilities

Columbus

Cleveland

Dayton

## HAZARDOUS BUILDING MATERIALS

- Asbestos Surveys and Assessments
- Lead-Based Paint Surveys and Assessments
- Sampling (Asbestos, PCBs, Heavy Metals)
- AHERA Compliance
- Operations and Management (O&M) Plans
- Abatement Specification Design
- Abatement Oversight and Clearance Testing

## ENVIRONMENTAL SITE ASSESSMENT

- ESA Screening
- Phase I, II and III Site Assessments
- VAP Brownfield Studies
- Risk Assessment (EPA / BUSTR)
- UST and AST Management
- BUSTR Closure Reports
- Groundwater and Soil Sampling
- Groundwater and Soil Treatment

## REMEDIAL ACTION

- Remedial Investigations / Feasibility Studies
- Remedial Action Plan Design / Implementation
- Solid Waste Management
- Regulatory Agency Coordination
- Certified Professional Services

## ENVIRONMENTAL ENGINEERING

- SWPPP / SPCC Plans
- NPDES Permitting
- Air Quality Monitoring and Permitting
- Noise Monitoring and Design
- Environmental Monitoring

## MAINTENANCE PLANNING

- Maintenance Program Audits
- Maintenance Program Development
- Capital Budgeting and Resource Evaluation
- CMMS Implementation
- Maintenance Management Training

## CULTURAL RESOURCES

- Literature Reviews
- Archaeology Surveys (Phase I, II and III)
- Historical Architecture Evaluations
- Section 106 Compliance and Coordination
- HABS / HAER Documentation

## ECOLOGICAL RESOURCES

- Wetland Delineations and Determinations
- Stream Assessments
- Threatened / Endangered Species Surveys
- GPS / GIS Mapping
- Permitting (Section 404 / 401)
- Regulatory Agency Coordination
- Wetland / Stream Restoration
- Mitigation Design and Monitoring

## ENVIRONMENTAL PLANNING

- NEPA Documentation - EA / EIS / CE
- Environmental Justice Assessments
- Community Impact Assessments
- Public Outreach and Facilitation
- Traffic Planning and Safety Studies

## INDOOR ENVIRONMENTAL QUALITY

- Indoor Air Quality Studies
- LEED IAQ Testing (EQc3.2)
- Occupant Complaint Investigations
- Moisture / Mold Management Plans
- Microbial Contamination Assessments
- Environmental Infection Control Monitoring
- Legionella* Sampling / Outbreak Investigations
- Radon Testing and Mitigation
- Remediation / Corrective Action Plans

## HEALTH & SAFETY

- Industrial Hygiene Sampling
- Compliance Program Development
- Employee Training

## WE OFFER:

- Accurate, responsive services that meet client and project objectives
- Value-oriented, practical solutions to avoid or manage environmental concerns
- Qualified staff with professional certifications relevant to required services
- Established relationships with local and state regulatory agencies
