

Transportation Noise/Air Analyst

Lawhon & Associates, Inc. (L&A) is seeking an energetic and self-motivated individual to complete air and noise analysis for the transportation sector. Responsibilities will include:

- Transportation Noise Analyses. Prepare transportation-related noise analyses and reports. Perform field noise measurements. Assist with noise-related research or training assignments. Assist with development of project budgets, technical approaches, and fee proposals.
- Transportation Air Quality Analyses. Prepare transportation-related air quality analyses and reports. Assist with air quality-related research or training assignments. Assist with development of project budgets, technical approaches, and fee proposals.
- NEPA Project Support. Assist with environmental studies for compliance with the National Environmental Policy Act (NEPA). Ensure QA/QC procedures are followed for assigned projects.

Qualifications

Qualified candidates will possess a Bachelor's degree, preferably in environmental science, planning, engineering, or engineering-related field, and at least 3-5 years of experience relative to the list above. Education must include at least one 3-hour course in computer sciences. Experience with transportation noise impact assessment and modeling techniques is desired, including use of FHWA Transportation Noise Model (TNM). Experience in use of current USEPA and FHWA air quality computer models is a plus.

Requirements

The required competencies and skills include:

- Effective communication skills
- Strong analytical and problem solving capabilities
- Strong technical writing skills
- Ability to manage multiple priorities and meet deadlines
- Knowledge of Microsoft office products

Contact
