Lawhon & Associates, Inc. (L&A) provides full-service environmental and engineering consulting services to the public and private sector. The company was founded in 1985 and attributes its success to providing responsive, client-focused technical expertise through the personal direction of the principals and senior staff. Headquartered in Columbus, L&A also has offices in Cleveland, Dayton and Cincinnati, Ohio.

We understand dealing with environmental challenges can divert time and resources away from your core mission. L&A’s engineers and scientists possess the knowledge and experience to identify potential environmental liabilities and prioritize needs and response actions that meet project and stakeholder objectives. Our clients can depend on us to provide accurate, practical and cost-effective solutions—backed by technical credentials and professional certifications relevant to the services we provide.

L&A is a women-owned, small business and a licensed engineering company in the State of Ohio. The firm also maintains numerous local and state government DBE certifications.

Lawhon & Associates, Inc. offers the full range of environmental services required for highway, bridge, transit, rail, bikeway, and airport projects. Our scientists and engineers have experience with Federal Highway Administration, Federal Transit Administration and Federal Aviation Administration regulations and procedures. We also understand the special needs of locally-funded transportation projects, tailoring our efforts to fit the requirements of the reviewing agency and funding source. **L&A is the only DBE firm and the only Ohio-based firm prequalified by ODOT in all twelve environmental categories.**

This practical experience, coupled with the credentials of our staff, provides L&A the expertise to simplify seemingly complicated situations. By considering the big picture, we are able to identify critical decision points and map common sense strategies to achieve your goals. With offices across the state of Ohio, and over 40 professionals on staff, L&A can mobilize quickly and execute efficiently.

**WE OFFER:**
- Responsive, client-focused technical expertise with attention to detail
- Value-oriented, practical solutions to avoid or manage environmental concerns
- Qualified staff with professional certifications relevant to required services
- Established relationships with local and state agencies
