

Hazardous Material Scientist

Lawhon & Associates, Inc. (L&A) is one of the leaders in hazardous materials and indoor environmental quality services in Ohio. We have an opportunity for the right individual to join our Hazardous Materials Department. The candidate will contribute to a variety of projects involving mold, asbestos, lead and other hazardous building materials. Responsibilities include but are not limited to:

- Building Inspections and Surveys
- Abatement/Remediation Design
- Air Monitoring
- Final Clearance Testing

Qualifications

Qualified candidates will possess an Associate or Bachelor's degree, preferably in a science-related field with at least three years of environmental consulting experience relevant to the anticipated responsibilities. We prefer an Ohio EPA AHES and AHAS certification. The position will require travel, with some overnight stays.

Requirements

The required competencies and skills include:

- Strong work ethic
- Effective communication skills
- Strong technical writing skills
- Analytical and problem solving capabilities
- Knowledge of Microsoft office products

Lawhon & Associates, Inc. provides full-service environmental engineering and consulting services to solve environmental issues for the public and private sector. The company was established in 1985 to serve an emerging market in asbestos/lead management. Over the past 34 years, our services have grown to include environmental site investigations and remediation; ecological and wetland services; cultural and historic resources evaluations; environmental permitting; indoor environmental quality studies; and NEPA compliance. We have over 35 professionals on staff with expertise and experience relevant to the services we offer. To learn more about Lawhon & Associates, Inc., please visit our website at www.lawhon-assoc.com.
