

Environmental Scientist

Lawhon & Associates, Inc. (L&A) is seeking an energetic and self-motivated individual to fill an environmental scientist position within our environmental site assessment department. Our practice is a unique and dynamic business that is focused on managing, investigating and resolving environmental concerns for the public and private sector. This position is based in our Columbus, Ohio office. We will consider candidates interested in both full or part-time employment, with remote working options for both classifications.

As a member of L&A's team, you will contribute to a variety of environmental site assessment projects, with a focus on ESA screenings and Phase I environmental site assessments. The selected individual may also contribute to subsurface investigations, remedial design and underground storage tank management/closure. Projects may involve travel to job sites throughout Ohio and surrounding states.

Qualifications

Qualified candidates will possess a Bachelor's degree, preferably in an environmental science, geology or engineering-related field, and 1 to 5 years of consulting experience relative to the disciplines listed above. Current OSHA 40 hour HAZWOPER certification is desired but not required.

Requirements

The required competencies and skills include:

- Effective communication skills
- Strong technical writing skills
- Strong analytical and problem-solving capabilities
- Ability to manage multiple priorities and meet deadlines
- Understanding of Ohio regulatory requirements

Contact

We offer industry-competitive salaries, remote work flexibility, medical, dental, life and disability insurance, a fully vested 401(K) retirement plan with 100% match, paid holidays and sick time. Successful candidates must have an acceptable driving record, be willing to travel and pass a background check. Please send your resume in word or PDF format to mglinsky@lawhon-assoc.com.

Lawhon & Associates, Inc. provides full-service environmental engineering and consulting services to solve environmental issues for the public and private sector. The company was established in 1985 to serve an emerging market in asbestos/lead management. Over the past 35 years, our services have grown to include environmental site investigations and remediation; environmental permitting; ecological and wetland services; cultural and historic resources evaluations; indoor environmental quality studies; and NEPA compliance. We have over 40 professionals on staff with expertise and experience relevant to the services we offer. To learn more about Lawhon & Associates, Inc., please visit our website at www.lawhon-assoc.com.
