

Ecological Intern

Lawhon and Associates, Inc., based in Columbus, Ohio, is seeking a self-motivated individual to join our Columbus office as an Ecological Intern for the spring/summer of 2024. This paid position offers a unique opportunity to work directly with our team of ecologists and environmental scientists, contributing to a variety of projects. The selected candidate will gain hands-on experience in wetland delineation, as well as various stream/wetland assessments such as HHEI, QHEI, and ORAM. Additionally, the intern will gain experience with plant identification and practical applications of the Clean Water Act and its associated regulations.

Qualifications

Qualified candidates will be pursuing or possess a degree in biology, environmental science, natural resource management or similar science-related fields. The ideal candidate should demonstrate the following skills:

- Sound understanding of wetland and stream ecology.
- Excellent oral, written and analytical skills.
- Willingness to conduct aquatic surveys: in waterbodies of various sizes.
- Able to work comfortably in and around water.
- Willingness to support a variety of infrastructure and development project types (e.g. transportation, and land management) with private and public sector clients.
- Availability for periodic overnight travel to jobs sites (mainly in Ohio).
- Open water dive certification (i.e., PADI, SSI, or equivalent) and/or the ability and desire to conduct aquatic surveys using snorkeling / SCUBA / SSA equipment is desired but not required.

How to Apply:

Interested candidates are invited to submit their resume in PDF format to <mailto:kblitzer@lawhon-assoc.com>. Please include "ECOINTERN2024" in the subject line of your correspondence.

Lawhon & Associates, Inc. provides full-service environmental engineering and consulting services to the public and private sector. The company was established in 1985 to serve an emerging market in asbestos/lead management. Over the past 38 years, our services have grown to include environmental site investigations and remediation; ecological and wetland services; cultural and historic resources evaluations; environmental permitting; indoor environmental quality studies; and NEPA compliance. We have over 40 professionals on staff with expertise and experience relevant to the services we offer.
